S

SKIN CANCER

The skin is the largest of the body's organs (yes, men, even yours). So if the thought of nonexisting every delicious carve, nook, and creamy bar paralyzed your brain under the weight of this seemingly impossible task — never you fret.

Simply roll up your sleeves, crack your knuckles, and get ready for PHIMLE.

READY FOR THE FULL FRONTAL?

Visit our hoppord page to gain access to all 50 positions, and help stick it to cancer, hard!

B

BREAST CANCER

Possibly the easiest of all places to commit to memory are the mammaries. But in the event your partner's melons have you scratching roses, this handy (pocket) guide should help you squeeze the most out of your (up and) cleverdome.

Just try the *TRI-AS* method.

NOT TITILLATED YET?

Well, perk up!

TESTICULAR CANCER

Tackling the testicles may seem like a handful. So if you find yourself concerned you might not have what it takes to judge a sack in the sack, we have just the technique for you.

Simply *fill* the testicles.

LOOKS LIKE YOU'VE FINISHED PREMATURELY?

But thankfully, we've always up for a second round.

P

PROSTATE CANCER

The prostate leaves much to be desired in the accessibility department. At least, for self-exams. Thankfully, after reading this little guide, you and your partner will doubtless feel more equipped than ever to put your finger on all of the prostate's delicacies.

Jeed remonder by *PRIMO* ®.

THUMBS-UP FOR MORE?
