THIS PROJECT EXISTS
TO HELP SAVE LIVES.

(ONE TWEAK, THRUST, HEAVE, AND PANT AT A TIME.)

BEFORE THE WHAT, *THE WHY.*

Because fear of cancer can be as bad as cancer itself.
Because 90% of cancer can be cured if checked by stage one.
Because fear, like cancer, may have the power to spread
— but they both share one major weakness:

KNOWLEDGE.

Because of all this, The Cancer Sutra is designed to challenge the taboos and conventions about cancer. Firstly by talking about how to look for cancer, not just find it. Secondly, by bringing the fight against cancer, and the prevention of it, out of a place of isolation.

AFTER ALL, SAVING LIVES IS *ONE THING*.

Having fun while doing it — well, that's something
we can all get behind. (Or in front of, depending.)

IT'S TIME WE GOT TO THE REAL
THRUST OF THE MATTER.

ONWARD & UNDERWARD
